Nurturing your school with the

Boxall Profile® Online

A guide for trained educators

Having completed your Boxall Profile®: Certified Practitioner course, you're now equipped to bring this insightful approach to life across your school and introduce and embed the Boxall Profile® Online. Let's explore how you can gently weave this valuable tool into the fabric of your everyday school practice.

Introducing the Boxall Profile® Online

Think back to what resonated with you during your training. That ‘aha!’ moment, that deeper understanding – that's the spark you can share. When introducing the approach and tool, share how it can help us truly see each child, understand their unique journey, and tailor our support to meet their individual needs. It's about creating a school where every child feels safe, understood, and ready to learn. Perhaps share a story that highlights the power of understanding a child's social, emotional and developmental needs.

Sharing the introductory online course

We know that feeling confident with a new tool is key. That's why the ‘Introduction to the Boxall Profile® Online’ course is such a valuable starting point.

- Spread the word: Let your colleagues know about this online, self-paced introductory course that will equip users with the foundational knowledge to confidently navigate the Boxall Profile® Online, understand its features, and ultimately gain deeper insights into their students' needs for more effective support. Sharing the benefits

Talk about the real difference the Boxall Profile® Online can make in your school community:

See beneath the surface

The tool helps us look beyond behaviours and gain a deeper understanding of the underlying social, emotional and developmental needs of our children. It's about truly seeing them.

Tailor your support

By identifying specific strengths and areas for growth, we can create more focused and nurturing support plans that truly meet each child where they are.

Speak the same language

The tool provides a shared framework and language, fostering clearer communication and stronger collaboration amongst all adults who support the child – educators, teaching assistants, SENCOs and ALNCos, parents, and beyond.

Catch needs early

It allows us to identify emerging needs sooner, enabling us to offer early support and prevent bigger challenges from taking root.

Watch growth bloom

We can use the tool to track progress over time, celebrating the small steps and ensuring our interventions are truly making a difference.

A whole-school approach

Embracing the Boxall Profile® Online across the school creates a consistent and nurturing approach for all our children, fostering a sense of belonging and security.

The impact on your school family

Think about and share the positive changes that can unfold:

More confident and connected staff: You'll see colleagues feeling more empowered and knowledgeable in understanding and responding to the diverse needs in their classrooms.

Happier, more secure children: When children feel truly understood and supported, they are more likely to thrive, engage with their learning, and feel a strong sense of belonging.

Classrooms as a safe base: A deeper understanding of needs fosters more positive and supportive learning environments where everyone feels valued.

Fewer stormy moments: By addressing underlying needs, we can often see a reduction in challenging behaviours, creating a calmer and more focused classroom environment.

Stronger links with home: The framework can enrich our conversations with parents and carers, creating a more united approach to supporting their child.

A school where everyone can flourish: By nurturing the social and emotional well-being of our children, we create the foundation for academic success and a truly thriving school community.

Your nurturing role continues:

Remember, embedding the Boxall Profile® Online is a journey, not a race.

Listen and learn

Be open to questions and offer your support as colleagues begin to use the tool.

Share the good
